PICTURE GUIDE

How to use the

Visa Packet app

Optional. Use it if it saves you time.
You can keep doing the paper packet.

STX CORPORATION
RAILROAD CONSTRUCTION SERVICES

1. Save the statement PDF into Files on your phone.
2. Add the app to your Home Screen. Open it from the icon.
3. First time only: Settings, your name, and the last 4 of the card.
4. Start a week, upload the statement, code each charge, add receipts.
5. Download the packet and email it to backup@stxrailroad.com.

Open this link in Safari on an iPhone:

`railboss70.github.io/stx-visa-packet`

Step 1

Save the statement

The app needs the PDF in Files, not only open in an email.

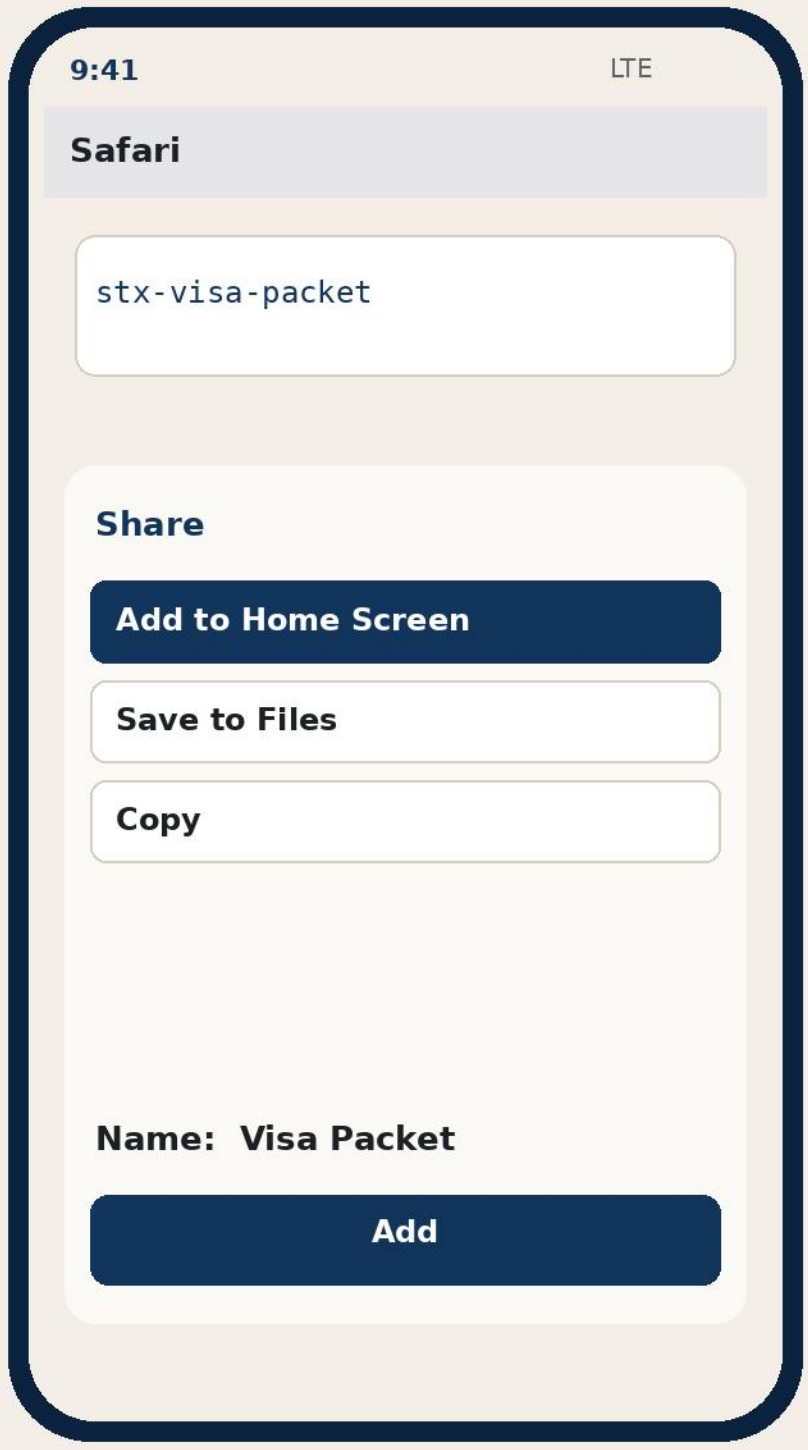

1. Open the email, or the bank site, that has the statement.
2. Tap the PDF so it opens on the screen.
3. Tap Share — the square with the arrow at the bottom.
4. Tap Save to Files. Choose On My iPhone, then Downloads. Tap Save.

Step 2

Put it on your Home Screen

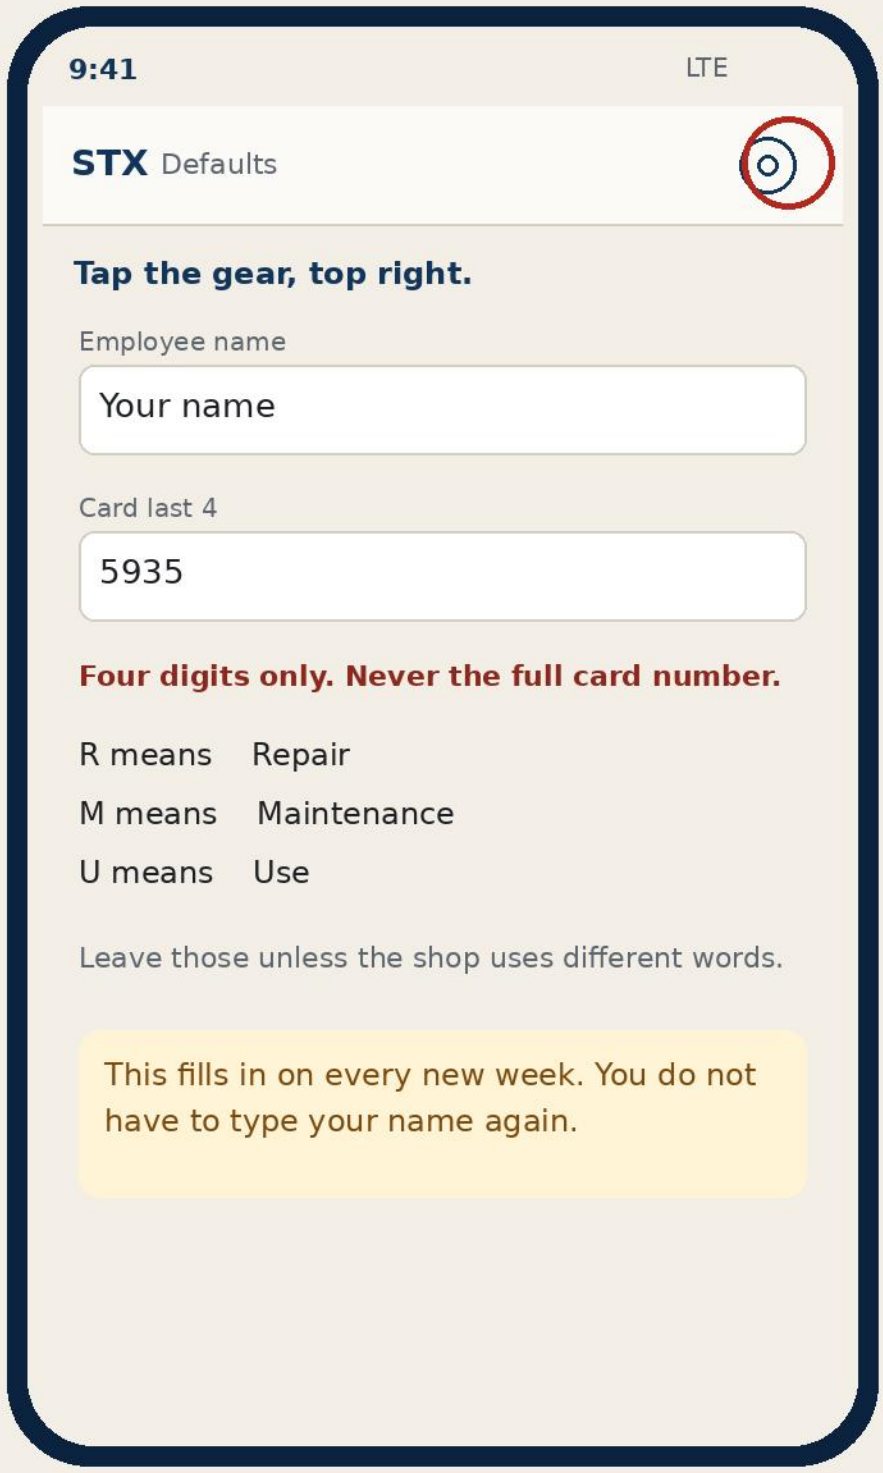

Use Safari. Chrome will not add it the right way.

1. Open Safari and go to the link on the cover page.
2. Tap Share, then Add to Home Screen.
3. Name it Visa Packet and tap Add.
4. From now on, open it from that icon. You only do this once.

Set your name and last 4

Do this the first time you open the app. Last 4 only — not the full card number.

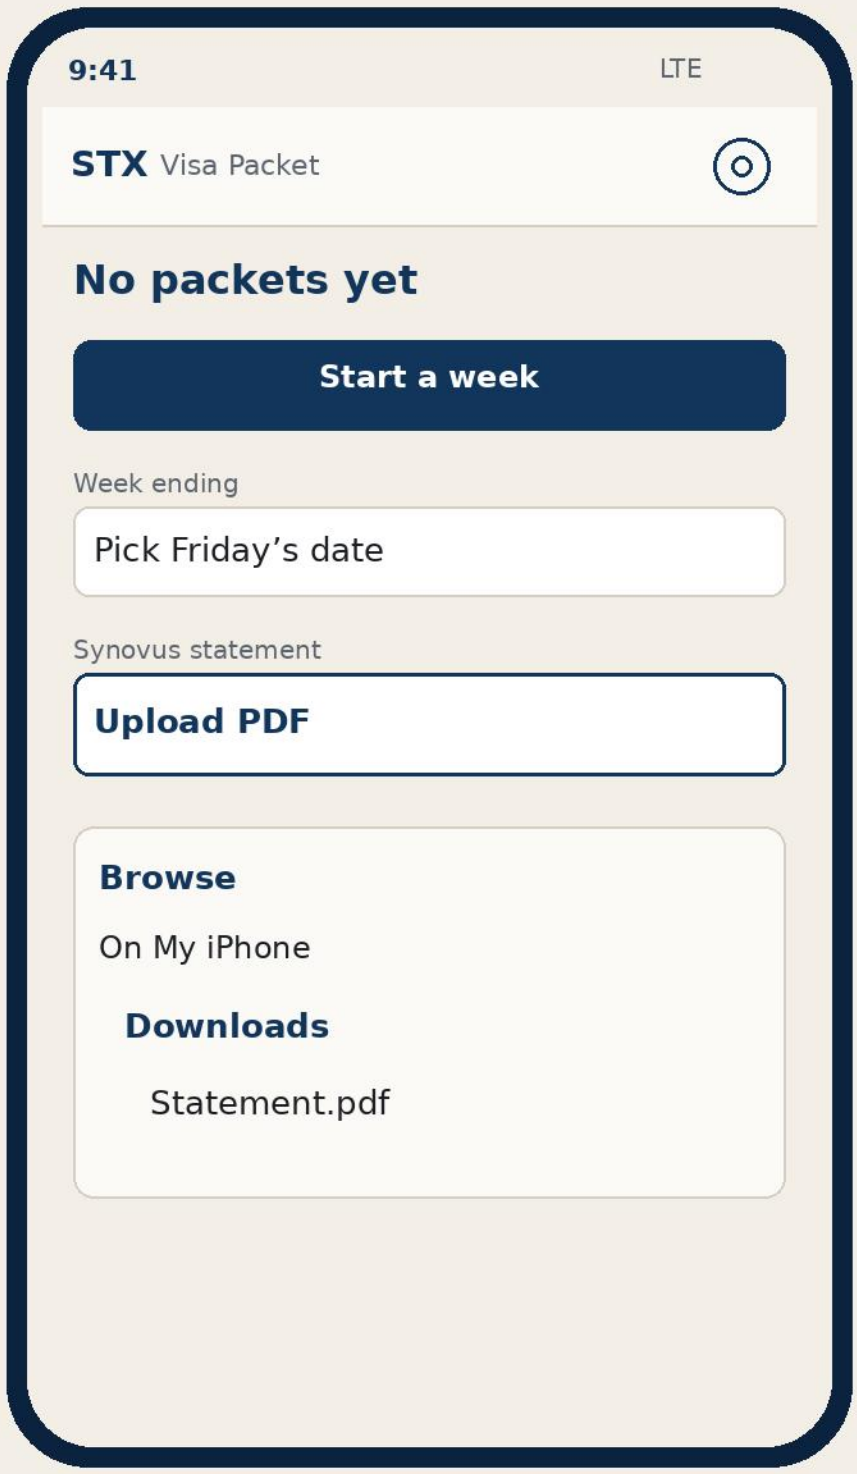

1. Open Visa Packet from the Home Screen icon.
2. Tap the gear icon in the top right. That is Settings.
3. Type your name under Employee name.
4. Type only the last 4 digits of the Visa under Card last 4.

Step 4

Start a week and add the statement

Use the PDF you saved in Downloads.

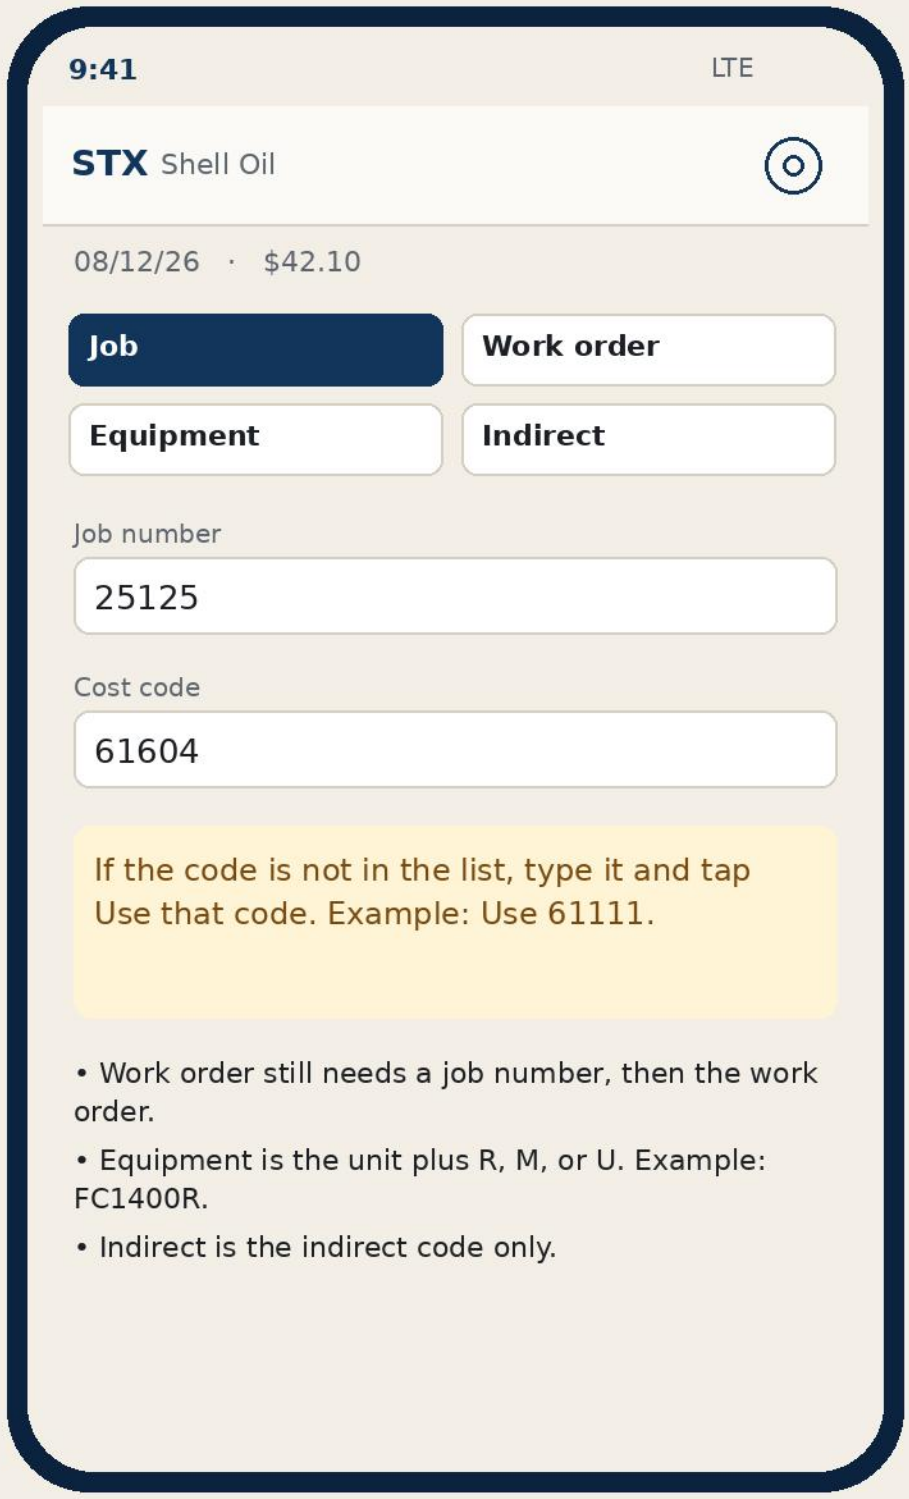

1. Tap Start a week and set the week-ending date.
2. Tap Upload PDF.
3. If the file is not in Recents, tap Browse.
4. Open On My iPhone, then Downloads, and tap the statement. The charges should fill in.

Step 5

Code each charge

Same choices as the paper form.

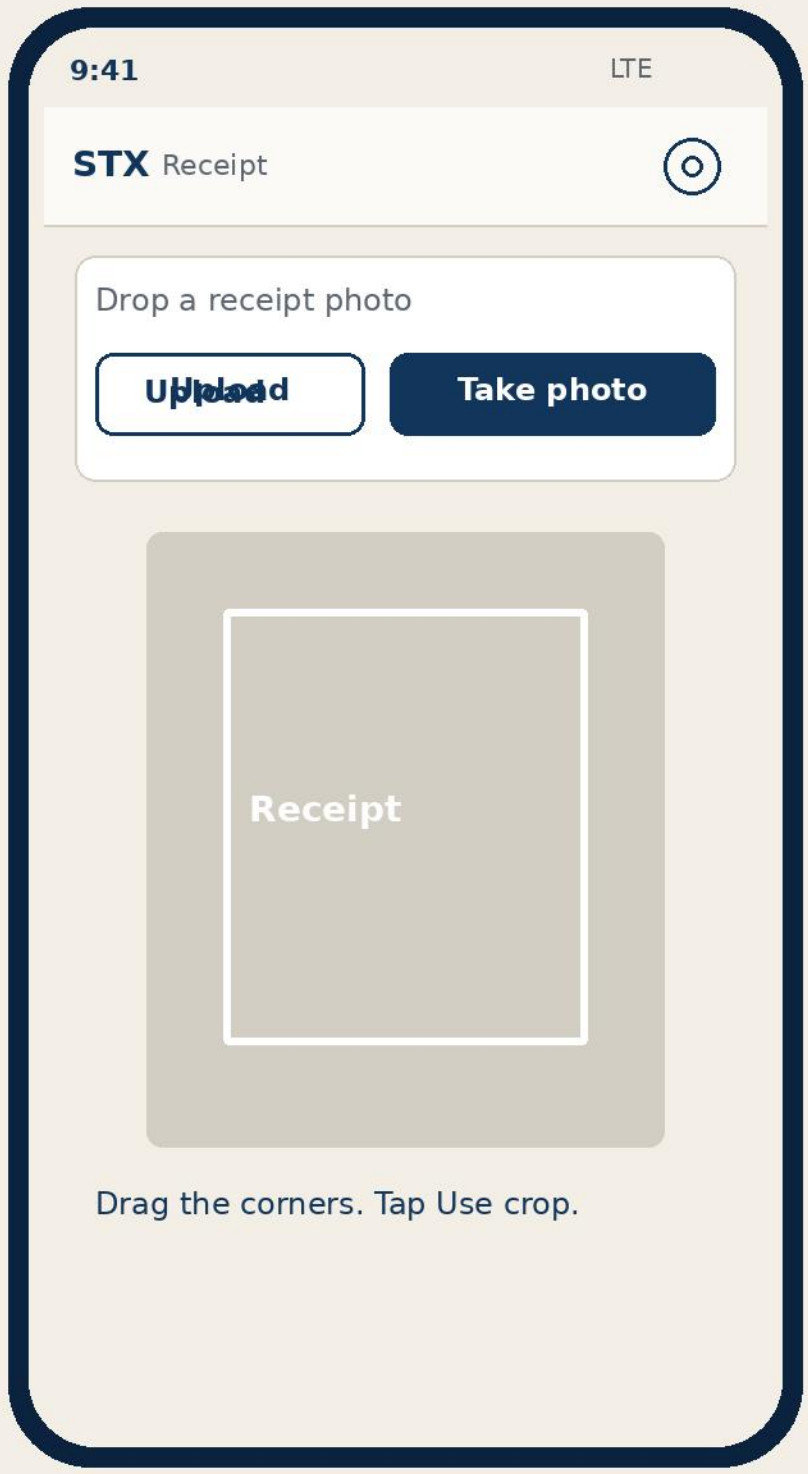

1. Open each charge and pick Job, Work order, Equipment, or Indirect.
2. Job: job number, then the cost code. Work order: job number, then the work order.
3. Equipment: unit number, then R, M, or U.
4. Type what you bought. A new cost code can be used on the spot and it saves for next time.

Step 6

Add the receipt photo

Camera or Camera Roll. You do not save photos to Files first.

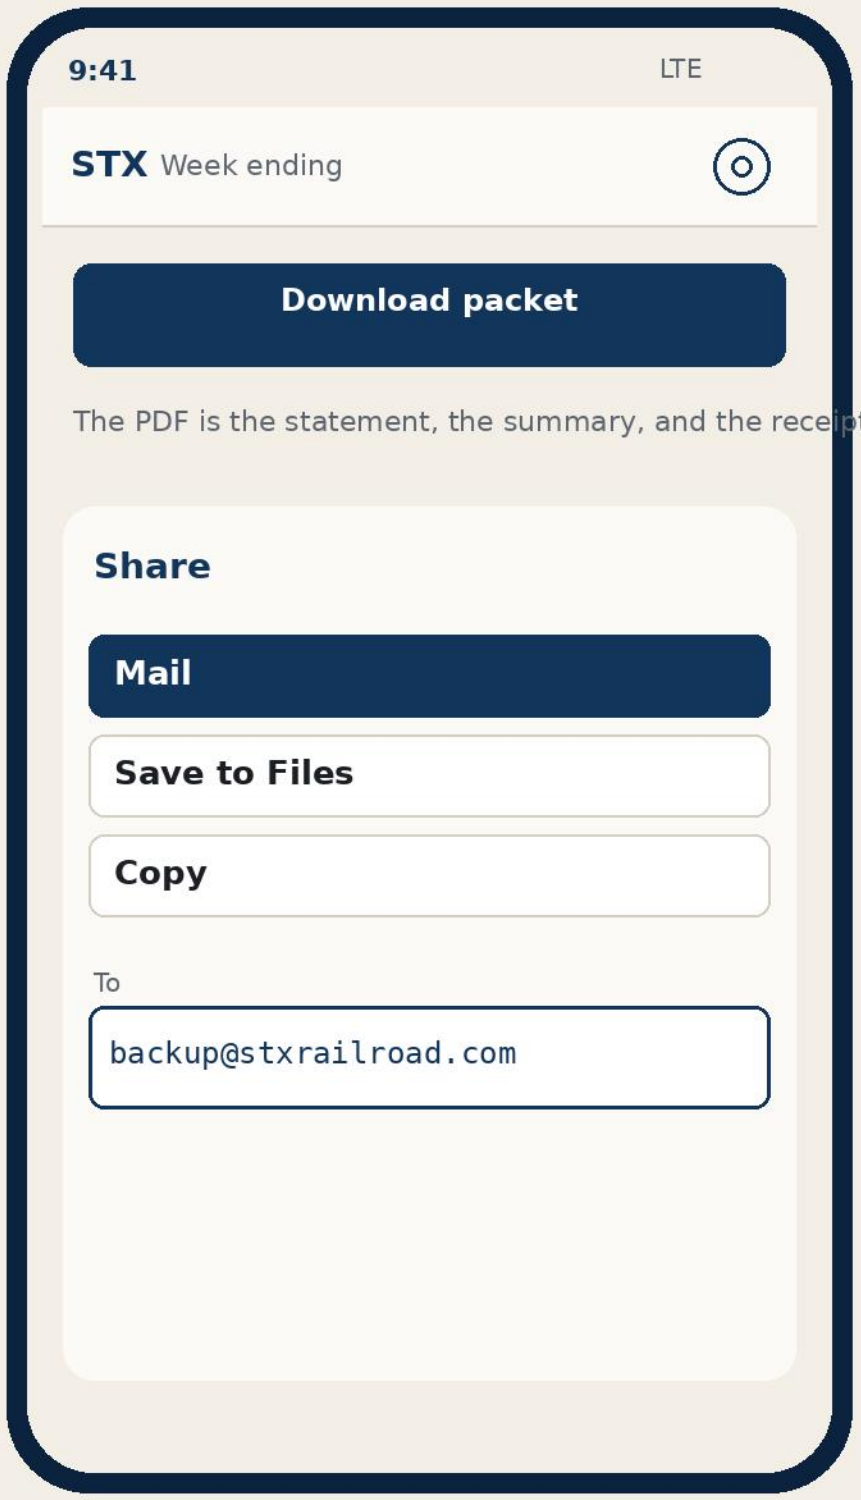

1. On the charge, tap Take photo or Upload.
2. Pick the receipt from Camera Roll, or take a new picture.
3. Tap the crop button and drag the corners so only the receipt is inside.
4. Tap Use crop. One receipt per charge.

Step 7

Download it and email it

Send the finished packet to backup@stxrailroad.com.

1. Tap Download packet. The button is also at the top: Packet PDF.
2. When the PDF opens, tap Share, then Mail.
3. Send it to backup@stxrailroad.com.
4. If it saved to Files instead, open Files → Downloads, tap the packet, then Share → Mail, same address.
